Impact of your Service as a Circulation Assistant

Last year volunteers re-shelved over 256,000 AV items. This has significant impact on patron satisfaction in that high-in-demand AV items are returned quickly to the shelves. Likewise, the quick and accurate emptying and sorting of returned items from book bins onto carts ensures that patrons can find the items they are seeking. This works also frees library staff up so that they can more easily assist patrons in their other library needs.
