# The Bell Telephone!

---

Cheap and instantaneous communication by Telephone in connection with the Magnetto calls.

The telephone has now attained such simplicity and cheapness, as to render it universally available for public, private, social or business communication.

No battery required, no skill necessary, only the voice of ordinary conversation required.

It conveys the quality of the voice so that the tone of the person speaking can be recognized at the other end of the line.

It enables the **MANUFACTURER** to talk with his *Factory Superintendent*, the *Physician* with his *patients*. It establishes instantaneous communication between the main and the *branch office*, the *home* and the *store or office*, the *Country residence* and the *stable*, or any part of the *grounds*, and in fact *between any two points miles apart*.

The noise of machinery, or the rattling of heavy carts over stone pavements does not in the least interfere with perfect communication.

To see Telephones and Magnetto calls in operation, call at the Rooms of Phonographic Institute, in Titus Building.

All are invited to a free test of its practicability.

Telephones and Magnetto calls furnished. Lines put up on short notice, and in the most substantial manner, at the lowest living rates.

No. 1 Small Gothic, small or large roman type, with stand all complete  
\$125 00.

No. 2 upper and lower case ; writes capital and small letters, figures, &c.  
\$150 00.

No professional or business man can afford to be without one.

The saving in paper and postage alone soon pays for the machine.

No intelligent father who can afford it, and who consults the welfare of his children, will fail to provide one for their use.

\$125.00 expended in that way will do more towards making a family of children good spellers, readers and correspondents, in a given time, than three times that sum expended in any other way.

## PHONOGRAPHIC INSTITUTE,

Copying Department, Room No. 2.

LAW PAPERS, LETTERS, LECTURES, EXAMINATION PAPERS, THESES, ETC.,

neatly and accurately transcribed on the perfected Type-Writer, in any color or with any style of type. No more than 3 cts. per hundred words charged in any case, unless copy is very bad and difficult to read. Where more than one copy is required, which can be made by the manifold process, only 2 cents per folio will be charged. These rates are cheaper than you can do your own copying without the aid of a Type-Writer.

### Reference Reporting.

A first-class Law Stenographer will be furnished to attend and report References, Surrogate Proceedings, &c., at \$5.00 per day. No charge for stationery or expenses, except when required to attend out of the city, in which case actual expenses will be charged. Transcribing Stenographic notes, including use of Type-Writer, stationery and binding, 5 cents per hundred words. Accuracy guaranteed.
