Know Your Directory Publisher

They are Alert to Protect You from the Directory

Faker, or from the Person with More

Ambition than Experience

The Making of Directories is a task calling for organization, study and a faithfulness to duties seldom found in any line of endeavor. All directory publishers have a system of instruction and a probation period of employment which weeds out the applicants for employment who seem to be unfitted for the work or deficient, and it is surprising what a large percentage of these applicants fail to pass the test. It is therefore easy to understand that the publishing of directories is a task that only Houses of recognized merit can accomplish successfully. Throughout the United States are publishers who give their lives to the furnishing of City Directories in order that each respective city may have an up-to-date reliable directory and for the protection of the public these reliable, experienced publishers have formed an organization called the Association of North American Directory Publishers. This organization has expended many thousands of dollars prosecuting fakers who preyed upon business houses in the guise of directory publishers. Sign no orders or receipts from so-called directory publishers unless you know the house with whom you are dealing. If in doubt ask the publishers of this Directory.

When You Place Your Ad in the City Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.

ITHACA

In the heart of the Famous Finger Lakes country and situated on the southern end of Lake Cayuga. It is surrounded by the wonders of nature only found in this region of the Finger Lakes. Falls, gorges, glens and dells are plentiful and under Parks and Points of Interest in this Directory can be found the details of some of the most prominent of the wonders of nature. The shores of Lake Cayuga are dotted with the summer cottages of Ithacans. Topographically Ithaca is in a class by itself among the cities of the country and no pen can adequately describe the many natural wonders within the city limits.

Ithaca is the county seat of Tompkins county, has a resident and student and college population of over 24,000. With its unrivaled scenic advantages and unusual educational facilities, it is preeminently a city of homes. It is also an important industrial center having large industries making guns, aeroplanes, chains, furniture, toys, bags, shirts, adding machines, advertising signs, cement, salt, etc. With such a diversity of resources as enumerated above it is easy to believe that Ithaca never has any business slumps of any proportions. There are seven educational institutions located here.

Ithaca has adequate transportation facilities as shown by the following: Lehigh Valley Railroad direct to New York City 250 miles east and to Buffalo 144 miles west; there are also two branches of the Lehigh Valley Railroad connecting with nearby cities; the Delaware, Lackawanna & Western Railroad have a branch terminal here and through this fine system first class service is given to all points between New York and Buffalo; Central New York and Southern Railroad furnishes service to the north; bus line connections in all directions; terminal of the New York State Barge Canal System with terminal basin adjoining the railroad yards. It is the nearest port to the anthracite coal regions of Pennsylvania, through the port of Ithaca, coal can be trans-shipped by water to points thousands of miles inland, it is confidently expected that this will come to pass and thus greatly enhance the importance of the port of Ithaca. The kind of highways that New York state is famous for extend in all directions out of Ithaca making this land of cataracts, towering cliffs, ravines and gorges easy of access.

There are 150 acres of parks and playgrounds which includes Stewart park located on Cayuga Lake. At this park is located an excellent bathing beach that affords comfort to thousands in the sweltering summer weather. A tourists camping site with conveniences is located in this park. There are also within the city limits a bird sanctuary and three picturesque gorges of Cascadilla, Six Mile, and Fall Creeks and within a few minutes ride of the city are Taughannock Falls and Gorge, Butter Milk Falls, Coy Glen, Enfield Falls and Gorge.

Ithaca has the usual advantages of most cities of three times its size. Its streets, buildings, stores, theatres, schools, etc. are up to date and keeping pace with the steady growth of the city. There are thousands of visitors annually and its air of refinement coupled with its wonderful educational facilities and solid industrial structure and its commercial supremacy for a large and prosperous region make it a very desirable place to live and do business and augurs well for a large future.
