ITHACA

In the heart of the Famous Finger Lakes country and situated on the southern end of Lake Cayuga. It is surrounded by the wonders of nature only found in this region of the Finger Lakes. Falls, gorges, glens and dells are plentiful and under Parks and Points of Interest in this Directory can be found the details of some of the most prominent of the wonders of nature. The shores of Lake Cayuga are dotted with the summer cottages of Ithacans. Topographically Ithaca is in a class by itself among the cities of the country and no pen can adequately describe the many natural wonders within the city limits.

Ithaca is the county seat of Tompkins county, has a resident and student and college population of over 24,000. With its unrivaled scenic advantages and unusual educational facilities, it is preeminently a city of homes. It is also an important industrial center having large industries making guns, aeroplanes, chains, furniture, toys, bags, shirts, adding machines, advertising signs, cement, salt, etc. With such a diversity of resources as enumerated above it is easy to believe that Ithaca never has any business slumps of any proportions. There are seven educational institutions located here.

Ithaca has adequate transportation facilities as shown by the following: Lehigh Valley Railroad direct to New York City 250 miles east and to Buffalo 144 miles west; there are also two branches of the Lehigh Valley Railroad connecting with nearby cities. The Delaware Lackawanna & Western Railroad have a branch terminal here and through this fine system first class service is given to all points between New York and Buffalo; Central New York and Southern Railroad furnishes service to the north; bus line connections in all directions; terminal of the New York State Barge Canal System with terminal basin adjoining the railroad yards. It is the nearest port to the anthracite coal regions of Pennsylvania; through the port of Ithaca, coal can be trans-shipped by water to points thousands of miles inland. It is confidently expected that this will come to pass and thus greatly enhance the importance of the port of Ithaca. The kind of highways that New York state is famous for extends in all directions out of Ithaca making this land of cataracts, towering cliffs, ravines and gorges easy of access.

There are 150 acres of parks and playgrounds which includes Stewart park located on Cayuga Lake. At this park is located an excellent bathing beach that affords comfort to thousands in the sweltering summer weather. A tourists' camping site with conveniences is located in this park. There are also within the city limits a bird sanctuary and three picturesque gorges of Cascadilla, Six Mile, and Fall Creeks and within a few minutes ride of the city are Taughannock Falls and Gorge, Butter Milk Falls, Coy Glen, Enfield Falls and Gorge.

Ithaca has the usual advantages of most cities of three times its size. Its streets, buildings, stores, theatres, schools, etc., are up to date and keeping pace with the steady growth of the city. There are thousands of visitors annually and its air of refinement coupled with its wonderful educational facilities and solid industrial structure and its commercial supremacy for a large and prosperous region make it a very desirable place to live and do business and augurs well for a large future.

ARCTIC WINS ITS WAY

Symbol of Purity and Perfection
in Frozen Dainties

QUANTITY in ice cream is more than a matter of manufacture. It is the combination of sanitary manufacturing methods, use of quality materials and unceasing protection of the finished product. When you get a brick or a gallon of Arctic note the care with which it is sealed against contamination. No wonder Arctic is popular!
