FINGER LAKES STATE PARKS
The Finger Lakes Region situa-

ted in the central part of New York State, combines a variety of scenery of a rich and striking character. Long blue lakes, gorges, rugged rock formation, waterfalls, and an abundant vegetation result in a series of pictures that reward the visitor. Glaciation during past ages helped in the creation of lakes and rounding hillsides and stream flow cut the great gorges with their varied waterfalls.

The state has taken over the more important beauty spots and is developing them into public reservations. The guiding principle has been to preserve the natural wild beauty, due consideration being given to broad scenic values and use by the visiting public. The outstanding characteristic of the Finger Lakes State Parks is the endless variety of waterfalls, ranging from the tumbling brook to the mighty Taughannock, which has a 215 foot straight fall of water and is the highest single falls east of the Rockies.

Scenic drives and trails are being constructed and are so placed that fine views of the glens and surrounding country may be had as one drives or walks through the parks. Many vistas, along the rim trails have been made at lookout points on the cliff edges, affording views of striking grandeur.

The educational, as well as recreational, advantages are being developed and enjoyed by thousands of motorists daily, and the parks are very popular for picnic and camping parties. Many families hold their reunion picnics at the Finger Lakes Parks, and at the parks which have swimming facilities, bathing is very popular. Camping and picnic supplies can be purchased at the park concessions or nearby stores.

Facilities such as shelter pavilion, containing rest rooms and refreshment counters; bath houses, equipped with shower, dressing rooms, lockers, etc., have been constructed at suitable places. Picnic tables, benches, floors for tents and open fireplaces are conveniently located and parking area, which will accommodate many cars, have been developed at each park. Firewood is provided and cabins also can be obtained at some of the parks. Athletic fields are being established, and part of the facilities, such as baseball diamonds tennis courts, bowling greens, etc., have already been installed at some of the parks, as well as playgrounds devices for the amusement of children.

Life guards are in attendance at all of the swimming pools and beaches. Also boating facilities are to be had at the lakeside parks.

During the 1940 season the following service charges will be effective:—Parking of automobile—15 cents per car in the supervised areas—(free areas are also provided, although not so conveniently located). Parking coupon books honored at all of the Finger Lakes State Parks for the entire season can be purchased from park attendants at \$2.50 each.

A camping permit costs 50 cents per night per unit of car or tent or \$2.50 per week, and at some of the parks cabins can be rented, \$1.50 to \$4.00 per night or \$7.50 to \$20.00 per week. The camping period is for not to exceed two weeks at a time unless special permission is obtained for a longer period.

The parks can all be reached over a fine system of improved highways through a most picturesque lake country and by railroads.

Buttermilk Falls State Park—Two and one half miles south of the city on Highway Route No. 13. There is an entrance at the head via South Aurora street and by a cross-road, or from the entrance proper at the foot, out five mile drive in the valley. Also there is an entrance to the upper area from Route No. 15 about a mile south of Ithaca. This entrance leads to Lake Treman, a beautiful artificial lake, which is about 1/2 mile long, with an area of about 15 acres. The park contains ten waterfalls and two glens, and in a distance of a mile Buttermilk Creek falls more than 500 feet in a series of rapids, cascades and waterfalls. There is a swimming and wading pool at the main entrance area. This gorge is remarkably picturesque, especially noted being Pinnacle Rock, the Narrow Gorge and the Long Cascade, 199 feet high.

Cascadilla Creek—A gorge at the lower end of Cornell University Campus. Views may be had from the bridges and from Goldwin Smith walk.

Cayuga Lake—Is one of the largest of the Finger Lakes, forty miles long and three miles wide. Has shores of rolling hills and steep cliffs. Fed by cold spring and is over 400 feet deep in many places.

Cornell University—East Hill. Beautifully situated on high ground overlooking the city and Cayuga Lake.

Coy's Glen—Two miles south of the city. Three miles in length. Each turn of the stream opens new vistas of beauty. Falls, cascades, rapids, shallows, odd rock formations, etc.

DeWitt Park—Cayuga, Buffalo and Court streets.

Robert H Tremans State Park—This park, five miles south of Ithaca adjacent to Highway Route 13, extends three miles into the hillsides, is primarily a scenic and educational one, although at its lower entrance there is a fine creek swimming pool of ample dimensions the water of which is continually changing and in connection with the pool there is a bathhouse, with the usual facilities, located in the woodlands nearby.

It is one of the wildest and most picturesque in this vicinity. Can be explored in two ways. Easiest

is by conveyance to Enfield Falls village and thence down the gorge to the foot of Lucifer Falls, 115 feet high, a walk of about a mile. This path leads through the narrow gorge, the "Devil's Kitchen," and the "Flume." Another entrance is from the state road in the valley.

The grandeur of Enfield Glen, through which the water from two creeks, with their large water shed flow, is a very pleasant surprise to the visitors, for one never expects to view such towering cliffs and mighty waterfalls. There are twelve waterfalls within this reservation with its highest, Lucifer Falls, being 115 feet high. The glen has rich and abundant vegetation and a notable stand of red pine with some of its trees over 200 years old. Mosses and lichens abound, many fine species being found. There is a mill, a century old, which has been restored to its original condition, and is used as a museum of ancient agricultural grinding machinery.

The usual picnic, camping and parking facilities are furnished, and well constructed natural trails up and down steps over rock shelves lead the visitors to all the beautiful spots, the acme of which is the crest of Lucifer Falls.

Fair Grounds—Intersection Titus av at Clinton and Meadow streets.

Finger Lake Region—Geologists claim there are only four other sections in the world with same formation and natural beauty as the Finger Lakes of Central New York—These are located in Scotland, England, Switzerland and Patagonia. Seneca Lake is the largest and deepest, with a length of 38 miles and depth of 600 feet. Cayuga Lake is second with a length of 40 miles and depth of 400 feet. Keuka Lake is the wildest of the group the hills surrounding it drop into its depth not even pausing to form a beach line. Owasco is the lake farthest to the east and is popular for yachting and camps and cottages are numerous on its shores. Canadigua Lake is the smallest with length of 15 miles. Variety is the keynote of the region

and the topography most unusual. It is a land of wonderful fertility and prosperous farmers, hill locked lakes, gloomy gorges, waterfalls, and wild ravines, and sylvan dells. To the lover of nature an enchanted country and a wonderland of surprises and grandeur. Railroads and very fine highways cross and recross this section, making all parts of it accessible to tourists. For camping, boating, fishing and for seekers in the labyrinths of nature, it is the great coming vacation ground of the eastern United States.
