THE CITY DIRECTORY

secures its information at the source from personal interviews by a complete door - to - door canvass which is a very expensive publishing operation.

It is the only complete census for public service. The City Directory's reliability and accuracy of detail are dependable, with a reasonable allowance for human error, late changes and absence of people from home.

H. A. MANNING COMPANY, Publishers

Ever think how much goes into publishing a city directory?

Contemplate ringing every doorbell in town . . . interviewing each resident, noting thousands of address changes, deaths, marriages, phone numbers, posting every new name by hand, debating every confliction, administering over a 60% change in the listings, proof-reading over 300,000 lines of copy, printing, binding, billing, distributing . . . and then six months later, starting all over again. Sometimes there isn't time to think.

We like our work. We're proud of it. We hope you like it too.

Paul Revere shouted more than just the British are coming

Being a progressive and resourceful merchant, as well as a great American, he chose the best opportunities to advertise . . . and, consequently, was the first to advertise in a city directory. Today there are directories documenting the transition of over 7,000 communities in North America. Write your company's name in the pages of history . . .

THE CITY DIRECTORY

As valuable today as it will be
100 years from now.
